- 25+ years of electronics manufacturing experience
- Exceptional quality assurance and certifications — IATF 16949 certified
- Unique global footprint to match your manufacturing requirements
- Flexibility to expand as your program grows

SECURITY PROCEDURES

Your safety is very important to Vexos.

Please review these essential safety instructions prior to your visit.

If you are injured, or an emergency arises please contact Management, and the appropriate person in your area.

Visitor badge required

No food or beverage is allowed on the operation floor

Stay within approved walkways unless escorted by a Vexos representative

Do not block Emergency Exits or Fire Extinguishers.

Use of cell-phone cameras prohibited

Yield to mobile equipment (fork truck operation is common - assume the operator cannot see you)

Do not touch operating equipment

ESD procedures must be followed at all times on the shop floor

Do not handle components or finished products without authorization

- Smock
- Heel strap
- Sign-in and test required

Vexos' ESD Control Program is based on the requirements and recommendations of ANSI/ESD S20.20 for the handling of Electrostatic Discharge Sensitive (ESDS) electronic parts, assemblies, and equipment susceptible to voltages greater or equal to 100 volts HBM.

The ESD Control Program is based on three principles

1. All ESDS items and related conductors including personnel must be bonded or electrically interconnected and attached to a known ground.
2. Removal of nonessential insulators from ESD protected areas and neutralization of charges on essential insulators via ionization.
3. Transportation and storage of ESD sensitive items outside an electrostatic protected area requires enclosure in static-shielding packaging.

TRANSPORTATION FROM HONG KONG INT. AIRPORT (HKG)

1 SKY PLAZA ROAD, HONG KONG INTERNATIONAL AIRPORT, LANTAU, HONG KONG

THERE ARE TWO OPTIONS FOR TRANSPORTATION TO DONGGUAN:
